

FORGE NFC (NEAR-FIELD COMMUNICATION) TAGS

Forge NFC is a simple idea: **put a shortcut where life happens.** Place a tag on your desk, in your car, or by your door — then tap your phone to run the routine you actually want. Faster than menus. More reliable than "I'll do it in a second."

NO BATTERIES

Passive tags — your phone communicates with the tap.

NO PAIRING

Place it. Tap it. Done (An app may be required)

BUILT FOR ROUTINES

Home, car, work, guests, safety.

FAST ON PURPOSE

Physical triggers beat buried settings.

START HERE: STARTER PACK

The fastest way to experience the “ohhh... that’s actually useful” moment. A curated set of tags for daily life.

Forge NFC Starter Pack Best Value

Six pre-labeled NFC tags for daily automation: Wi-Fi, VPN, Home, Car, Guest, SOS.

- 6 durable NFC tags (mix of sticker + keychain, configurable)
- Works with Android automations + Forge NFC app
- Simple tap actions (no batteries)

\$24.99 Includes 6 tags

HOW IT WORKS

1. **Place** a tag where the decision happens (desk, car mount, entryway, nightstand).
2. **Tap** your phone.

3. **Run** the routine: connectivity, focus, guest access, safety, or a custom workflow.

It's the fastest UI there is: the real world.

USE CASES THAT FEEL LIKE MAGIC

CAR MODE

Maps + music + Bluetooth + driving focus. One tap as you get in.

HOME MODE

Connect Wi-Fi, open your dashboard, switch into "off work" mode.

GUEST WI-FI

Tap to show a QR code or a simple guest page. No password reciting.

WORK / FOCUS

Timer + tasks + Do Not Disturb. Put it on your monitor stand.

SOS

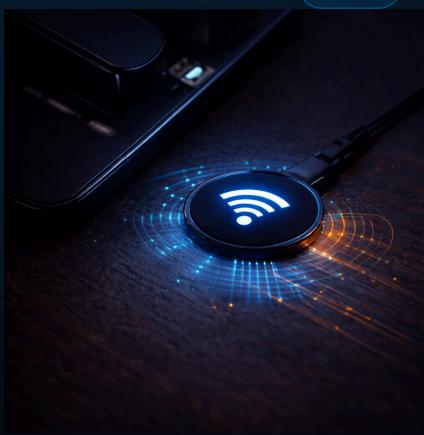

Emergency actions: call, text, location share, medical info link.

TOOLBOX / LAB

Tap to open docs, wiring diagrams, checklists, dashboards.

NFC TAGS

Forge Wi-Fi Toggle Tag Popular

Tap to toggle Wi-Fi on/off (perfect for commuting, battery saving, and quick reconnects).

- Fast Wi-Fi toggle (Android automation)
- Great for saving battery + quick reconnect
- Place on desk, car mount, or charger

\$6.99 Single tag

[View Wi-Fi Tag](#)

Business Card Tag Pro

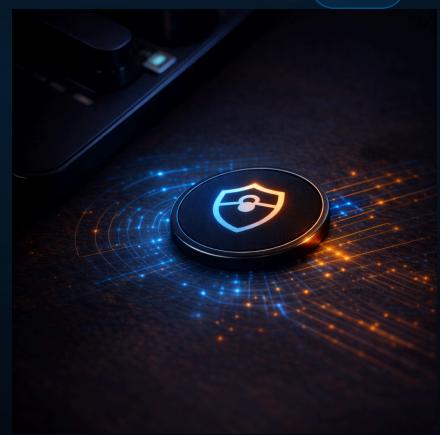

A tap-to-share NFC business card — your contact info, links, and socials in one clean tap.

- Tap to open your contact card + link hub
- Optional vCard download
- Works great on modern Android; iPhone support varies by use-case
- Custom branding/label available

\$14.99 Single Card Tag
